

About Vicom

Established in 1982, **Vicom** is a leading information technology consulting firm servicing the Fortune 1000, state and local governments, and emerging mid-market organizations.

As a provider in the information technology industry, Vicom offers solutions that enable our customers to operate more efficiently and effectively in today's ultra-competitive environment.

Vicom's family of companies provide services and solutions in the disciplines of Unified Networks, Servers, Storage, Virtualization, IT Management, Data Protection/Availability, Security, Infrastructure Services and Consulting Services.

Our commitment to innovation, efficiency, quality and customer service is the backbone of our corporate philosophy. Vicom has continually been named as one of *Crain's NY Business 50 fastest growing private companies in New York*, as well as one of the *Inc. 500 fastest growing private companies in America*. These awards not only demonstrate the integrity and success of our relationship with our customers, they are indicative of the strength of the employees that make up our organization.

Headquartered in Farmingdale, NY, with remote offices in NYC, CT, PA NJ, and Albany, Vicom currently employs over 150 people dedicated to servicing the needs of our customers. With over 500 certifications and strategic partnerships our talented teams of architects, engineers, and consultants have the expertise to design the right architecture for virtually any IT project.

Vicom holds many premier authorization levels including VMware Premier Partner, IBM Premier Partner, Cisco and Microsoft Gold Certified Partner status among many others.

Our industry insight allows us to be leader in solutions, such as Cloud, Virtualization, Infrastructure Management, Security, Unified Networking, Infrastructure Optimization and Consulting Services.
